

Green & Sustainability Zone

@G2E Asia 2021

May 25-27, 2021 | The Venetian Macao | www.g2easia.com

A New Era for Gaming and Entertainment

G2E Asia is the most iconic gaming and entertainment event in Asia. It is the must-attend platform for Asian gaming professionals to launch exciting new innovations that symbolize a new era of gaming and entertainment. The show will also be rich with opportunities to network with key influencers, hold business meetings and define the future of the continent's gaming industry.

Why Green & Sustainability Zone?

Green & Sustainability Zone at G2E Asia will feature latest solutions and sustainable technological advancements to current challenges to the seamless development of green solutions. To develop an eco-friendly roadmap for the future of Asia's gaming industry.

The global green technology and sustainability market generated \$6.85 billion in 2018 and is estimated to reach \$44.61 billion by 2026, registering a CAGR of 26.5% from 2019 to 2026. In the coming years, Asia-Pacific (APAC) is projected to grow the fastest in the industry, on account of the increasing awareness about environmental damage.
